

# BRENNUS

## USB Gaming Headset

The 7.1 Virtual Surround Sound immerses you in the in-game environment so that you can hear and detect your enemies and incoming threats all around you. When you connect the USB to your PC and download the Velocilinx Surround Sound software, you can fully customize the sound for each game, and save your settings in individual named profiles.

The 50mm advanced neodymium drivers deliver high-quality stereo sound to keep you immersed in your game or music from start to finish with modern lightweight comfort design that is crafted for long gaming sessions.

Onboard unique tension controls adjust the tightness of the headset to your personal preference and soft memory foam earpads block outside sounds and keep your ears cool for distraction-free play. Seven LED lighted colors add a stylish ambiance to your game play.

Part Number: VXGM-HS71S-21U-BK

Velocilinx™
